ACADEMY

Greetings!

Raw Engineering Academy has come from a very noble and humble thought of giving back to the town, Virar! The academy is a specialized IT and soft skills training program, designed to combat India's IT job-readiness crisis & bridge the skills gap. We offer intensive job-readiness programs that give students access to adequate training by industry professionals, mentorship through the course & experience working on Real Life Projects. Our multi-skilled and industry focused programs, guides students towards the future skills which can lead them towards the brighter tomorrow!

Our first batches successfully completed the course and are heading towards placements now.

They say a good teacher is someone who can transfuse the desire to learn in students. That means that the right knowledge of a subject is not enough, the teachers need to possess essential skills as well. We have curated a program where faculties will be able to write Research papers with the help of our highly qualities mentor from IIT & other reputed institutes.

The highlights of the Course:

- Short duration, workshop pattern, weekends to suit most faculty schedule
- Research, Data assistance
- Personal mentoring and review
- Highly qualified mentors
- Reasonable Fees
- Location: Raw Engineering Office at VIVA new campus, Virar West.
- Program Outcome: a research paper outline ready of each candidates.

The Overview of this FDP (faculty development program) for Research course:

What is Research? **(Day 1 & 2)**

    a. Understanding what exactly is research

    b. Opening accounts on different Scopus, ORCID, Web of Science and various important website

    c. Understanding what are predatory journals and how to maintain authenticity in research

    d. Research Ethics and Terminologies

    e. Difference between Research article, whitepaper and Research paper

    f. What are the latest rules for a professor as per UGC and AICTE in terms of publications and guides

2. Understanding Introduction and what to write **(Day 3 & 4)**

    a. What is the meaning of Introduction?

    b. What are the elements of an introduction?

    c. How do you gather data to write an introduction

    d. Understanding flow of an Introduction

    e. What is a problem statement?

    f. How do you end an Introduction?

3. Carrying out Literature Review on the topic **(Day 5 & 6)**

    a. What is literature review and why is it important

    b. How to search for the authentic literature?

    c. How to read through papers

    d. Creating a repository of important papers related to the topic.

    e. Understanding research gaps

    f. Converting research gaps into research objectives

    g. Mentoring for the Introduction

4. Teaching Methodology **(Day 7 & 8)**

    a. Understanding what is methodology

    b. What are the different methodologies

    c. What is primary research and secondary research?

    d. Understanding sample size and why is it important

    e. How to write a proper methodology

    f. Mentoring on Literature Review

5. Understanding and Interpreting Results and Discussions **(Day 9 & 10)**

    a. Converting the data collected into results

    b. Representing the results using proper tables and figures

    c. Analyzing the results using different techniques

    d. Converting analysis into insights

PRINCIPAL

Vishnu Waman Thakur Charitable Trust's

VIVA INSTITUTE OF APPLIED ART

    e.   Writing the results and discussions

    f.   Mentoring on Methodology

6. Writing Conclusion and Future Recommendation **(Day 11)**

    a.   Understanding what is to be written in conclusion

    b.   How to go broader with conclusion and looking at the big picture

    c.   Writing future recommendation and why is it important

    d.   Mentoring for Results and Discussions

7. Overview on APA Style Referencing and providing feedback on the paper written based on the given data. **(Day 12)**

    a.   How to do write in text citation and bibliography

    b.   Understand APA Reference style

    c.   How to use APA style for different parts such as images, conference papers, journal papers and all

This is a great opportunity for all the faculties especially from Engineering, Applied art & Architecture stream faculties as we focus further on Design & User centric methodologies. For any queries please reach out to us we will be happy to help and can curate as per institute specific needs (Duration, number of faculties, in-premise training).

Warm Regards,
Kshitija Katare.
